PROFESSIONAL SUMMARY

Detail-oriented and results-driven **Java & MERN Full Stack Developer** with **2.10+ years of total experience**, including strong hands-on expertise in **Java, Spring Boot, REST APIs**, and the **MERN stack**. Proven experience in building **scalable enterprise applications** across **HRMS, ATS, and real estate domains**, delivering secure, high-performance **web and mobile-responsive applications**. Adept at end-to-end development, API design, authentication, and cross-team collaboration to solve real-world business problems.

WORK EXPERIENCE

Java Full Stack Developer

Thikse Software Solutions

Sep 2025 – Present

Project: Fuoday.com – HRMS & ATS Platform (Web & App)

- Contributing to the development of **Fuoday HRMS & ATS**, a comprehensive enterprise platform for **employee management and recruitment automation**.
- Designed and developed **backend services using Java, Spring Boot, and RESTful APIs**.
- Implemented core HRMS modules including **Employee Management, Attendance, Leave Management, Roles & Permissions**, and **User Authentication**.
- Developed ATS features such as **Job Posting, Candidate Tracking, Interview Workflow, Status Management, and Recruiter Dashboards**.
- Integrated secure **JWT-based authentication and role-based access control (RBAC)**.
- Collaborated with frontend teams to ensure seamless API integration for **web and mobile applications**.
- Actively involved in **bug fixing, performance optimization, and code reviews** following clean code and best practices.

Technologies: Java, Spring Boot, REST APIs, MySQL, JWT, Git, Postman

MERN Stack Developer

Legends Tech Solution Pvt. Ltd., Puducherry

July 2023 – July 2025

- Led development of scalable **real estate web platforms** focused on rental and residential listings.
 - Built responsive full-stack applications using **React.js, Node.js, Express.js, and MongoDB**.
 - Developed secure APIs and implemented **JWT authentication** for role-based user access.
 - Worked closely with UI/UX teams to deliver **responsive and accessible interfaces** using Bootstrap and React Bootstrap.
 - Performed API testing using **Postman** and managed version control with **GitHub**.
-
